## Objective

I am seeking to diversify my work experience while continuing to manage high profile client focused projects for the web. I have 10 years of industry experience in a variety of roles.

## Work Experience

### WALL STREET ON DEMAND

**Present**                      **Senior Project Manager**  
**2004 - 2006**                **Development Manager**  
**1999 - 2004**                **Design and Development Engineer**

My career at Wall Street on Demand (WSOD) began in 1999. I have held a wide variety of titles and contributed to the growth of this successful development partner for financial brokerages and media clients. My first position at WSOD was as web developer. I gained valuable hands on experience working on a software development team. I have had the opportunity to grow within the company from web developer to project leadership and business development roles. I currently manage several clients day to day and consult on new product road map for the company to move into the search engine marketing space.

### Crispin Porter + Bogusky

**2007**                      **Integrated Producer (Interactive)**

Near the end of 2006 an opportunity came up to gain some experience outside of WSOD and contribute to the launch of vw.com. I took a hiatus from my technical work and spent the majority of 2007 learning from some of the best creative minds in the interactive space. It was a refreshing change from the investment world, and a new set of challenges being part of an integrated process. It was exciting and valuable to work with such a wide variety of clients, vendors and creative directors.

## Client List

I have worked on projects for the following brands and clients:

<b>Royal Bank of Canada</b>	<b>Volkswagen</b>	<b>Charles Schwab</b>
<b>Fidelity</b>	<b>Best Buy/Geek Squad</b>	<b>Banc of America</b>
<b>JP Morgan Chase</b>	<b>Ask.com</b>	<b>CNBC</b>
<b>Investor Business Daily</b>	<b>Conagra</b>	<b>Scottrade</b>

## Education

**B.S. Computer Science 2001**  
University of Colorado, College of Engineering, Boulder, CO

**Outward Bound Outdoor Leadership 1994**  
Pacific Crest Outward Bound, Seattle WA

## Technical Skills

My technical background has taught me to highly value hands on knowledge. I make it a point to keep up to date with tools and techniques that are popular. Here are some tools I use regularly:

<b>Languages</b>	<b>Platforms</b>	<b>Software</b>
JavaScript	LAMP	MS Office
(X)HTML and XML	IIS/ASP/.NET	Adobe Creative Suite
ASP and ASP.NET	OS X and Leopard	Wordpress
PHP	Vista and XP	Wikimedia
